10,000 or over . . . . .	2.00 per 1,000

Write for prices on lots of a hundred thousand or more

### FERRY'S ROUND DUTCH

71 days. Splendid for home and market garden. Plants small and compact; stem short. Heads almost ball-shaped, commonly 7 to 8 inches in diameter and 6 inches deep, weighing 4½ to 5 pounds. Firm and of high quality. Slow to produce "seeders."

### CHARLESTON or LARGE WAKEFIELD

71 days. Desirable for home and market garden. Head broad heart-shaped, 8 inches broad at base, firm, commonly weighing 4 to 5 pounds. Fully a week later; heads larger and broader heart-shaped than Early Jersey Wakefield.

### COPENHAGEN MARKET

A fine Cabbage. This variety is nearly as early as Jersey Wakefield. The stem is short, and the large, round, solid head has few outer leaves. My stock of this popular variety is extra early, uniform and dependable. A round head, weighing 3 to 3½ pounds, produces headed Cabbage 70 days after plants are set out.

### GOLDEN ACRE

62 to 64 days. The earliest round-headed Cabbage; especially valuable for early market and shipping. Plants very small and compact; stem short; heads uniformly round, firm, commonly 6 inches in diameter and weighing 3 pounds. This is similar to Copenhagen Market but is several days earlier and the heads are smaller. It is practically as early as Early Jersey Wakefield.

Copenhagen Market Cabbage Plants being pulled in February  
at Palatka, Florida, Farm. St. Johns River in the background.

# Fulwood's GENUINE WILT-RESISTANT FROST-PROOF PLANTS

Ready September 1 to June 15 except where otherwise noted

## WISCONSIN ALL-SEASON

This is a yellows-resistant strain developed at the Wisconsin Experiment Station by selection of healthy plants of standard All-Season grown on infested land. Wisconsin All-Season is a very valuable, heavily productive, hard-headed variety of particular merit for use in yellows-infested localities, and it is well adapted for kraut and for winter use. Makes heads in 85 days, weighing 6 to 8 pounds.

## MARION MARKET

This is also offered as Wisconsin Copenhagen and is a very important midseason yellows-resistant variety for kraut manufacture and market. This variety has prominent globular heads which approach those of Glory of Enkhuizen in size, and it produces a heavy yield on yellows-infested soil where ordinary varieties fail. Matures heads 70 days after plants are set out. Somewhat larger head than Copenhagen, but the same shape.

## GLORY OF ENKHUIZEN

80 days. Attractive, round, solid heads, 7 to 8 in. in diameter, and weighing from 5 to 6 lbs. each. They are exceptionally firm and solid. Leaves are finely ribbed, exceedingly tender and of remarkably fine flavor. Makes excellent kraut, slaw, etc.

## GEORGIA BLUE STEM COLLARD PLANTS

These are very much like Cabbage plants. They grow from 2 to 3 feet tall, with light green, tender leaves on long stems. They withstand heat and have an excellent flavor when cooked. I have a good supply on hand the year round and can make prompt shipments at the same price as Cabbage.

FROST-PROOF ONION PLANTS ON BACK OF THIS PAGE

# FULWOOD'S ONION PLANTS

GENUINE  
FROST-PROOF

Ready September 1 to June 1

Southern-grown Onion plants are no longer an experiment. Large quantities are set out every year and they are rapidly displacing sets. They will grow large, sweet Onions early, and are good keepers. They produce Onions two to three times larger than sets, and seldom run to seed. They can be set early, the same time you would put out sets or cabbage plants. Therefore, we strongly advise you to use our plants instead of sets, whether for the market or home use. Our Onion plants are grown from the very best seed, and will be found true to name. These Onion plants should be set out at the same time as cabbage plants, and you can order them for shipment at the same time.

Most Onion plant growers pull Onion plants ahead and store them several weeks before shipping. Such plants cannot produce good crops. Our plants are fresh pulled and shipped the same day and produce better crops.

## SWEET SPANISH

The best of the very large mild varieties. One of the original Spanish types, but a better keeper because it was selected for keeping qualities. Deep amber-orange; small neck; globular.

## YELLOW BERMUDA

This is the most widely planted of all Bermuda Onions. No sweeter Onion is grown than this, and it always has a ready market. It is a large producer and a real money-maker. Whether grown for marketing or for your own table, you can make no mistake in ordering this variety.

## CRYSTAL WAX BERMUDA

Probably the best-selling Bermuda Onion on the market, because of its exceptionally attractive appearance. It looks much like the Yellow Bermuda except that it is crystal white and waxy. Because of its sweet, mild flavor, like the Yellow Bermuda, this is an excellent eating Onion.

## PRICES

Onion Plants are tied 100 to a bunch. Shipping weight is 7 lbs. to the 1000 plants.

# Fulwood's BUNCH PORTO RICO SWEET POTATO PLANTS

*Not Frost-proof*

*Ready for Shipment About April 1 to July 1*

Our new Bunch Porto Rico Sweet Potato Seeds are State Inspected, free from disease and certified for shipping to all parts of the country.

This variety, over a three year period, was tested out by the Georgia Coastal Plain Experiment Station here at Tifton. It has no vines but grows straight up, making cultivation easier as there are no vines to turn and they are easier to dig for the same reason. They are easy to make live and produce a marketable crop of potatoes about three weeks earlier than the regular vine Porto Rico.

They will produce about 63 bushels per acre more of marketable potatoes than the vine potatoes and will run about 90% U. S. grade No. 1. The Bunch Porto Rico Sweet Potato is a short, "chunky", Copper Skin potato with a red meat and has an exceptionally high sugar content and is excellent for table use. This potato keeps better than most potatoes and in a very short time will be the leading potato grown throughout the South.

If you prefer to bed your own potatoes and grow your own plants we can furnish you the Seed Potatoes at \$6.00 per bushel, F. O. B. Tifton by Express or Freight. These Seed Potatoes are shipped in bushel crates and shipment can be made at any time up to April 1st. After that time we will bed all seeds not sold. We highly recommend that you plant some of these Bunch Porto Rico Sweet Potatoes.

Carolyn and Celeste Fulwood standing in a field of Copenhagen Market Cabbage. Notice uniformity of cabbage heads.

Mr. Phil Roets of Williamson, N. Y., displays some Eggplants grown from Fulwood Plants.

## Guarantee

### 39 YEARS OF SATISFACTORY SERVICE

I guarantee all of my plants to be exactly as described in this catalog. Fresh pulled day order is received (where weather will permit). Plants pulled approximately 50 to bundle and packed to carry to your home in good condition. Any plants arriving in bad condition will be reshipped at once, provided you notify me within five days. When you purchase Fulwood's plants you will receive full count, no runts, no diseased plants, and you will receive the exact varieties ordered.

I send you only the highest quality plants and gladly stand back of them. However, weather, soil, and care also influence crops, so in no case shall I be responsible for any amount beyond the purchase price.

*P. D. Fulwood*

*Mr. Roets wrote us:*

Here are some Eggplants from plants you sent me and I would like to have you see some of them, they are 3 to 4 feet tall. I recommend your plants to anyone.

Hoping to get plants from you for a long time to come.

Yours truly,  
Phil Roets  
Williamson, N. Y.

# PLANTING CHART

Fulwood's Vegetable Plants	Fulwood's Special Selected Varieties	Hardiness as to cold	Width of row in feet	Distance apart in drill in inches	Plants to set 100 to 150 ft. of row	Plants to set one acre
Cabbage	(in order, early to late) Early Jersey Wakefield Copenhagen Market Charleston Wakefield Early Flat Dutch Golden Acre	Frost Proof	3'	18"	100	Flat Dutch: 10,000 Others: 12,000
Collards	Georgia	Frost Proof	3'	18"	100	10,000
Onion	Yellow Bermuda Crystal Wax Spanish Valencia	Frost Proof	1½'	3"-6"	200	60,000
Tomatoes	Greater Baltimore Marglobe Bonnie Best Pritchard Rutgers	Frost Kills	3'	30"	50	3,500
Sweet Potato	Porto Rico	Frost Kills	4'	12"	100	11,000
Eggplant	Black Beauty	Frost Kills	2½'	24"	100	7,000
Pepper	California Wonder	Frost Kills	3'	24"	50	15,000

**PLANTING NOTES:** When plants arrive, if your ground is not in condition to plant right away, take the plants out of the crate, cut the bands, spread out and place the roots in soft mud. In planting, pack soil well around the roots, pouring water in the hole after the plants are set out. Throw loose dirt around the plants after watering to keep the wet soil from drying out. Use chart above for proper spacing.

## *Read What Some Satisfied Users of Fulwood Plants Have Written*

Spring Hill, Tennessee.

"This letter is to express my appreciation of the service and quality of cabbage plants you have sent me in the past. I have ordered cabbage plants from you for several years and have had great success with them. I am ordering some for one of my neighbors this year, as he has seen what large heads I had last year and ask me to order some for him. All of my neighbors were amazed over my cabbage last year. I am sending you a large order this year, as I find your cabbage are so much better than the ones I have been getting. Before I started ordering from you I could never have success with cabbage heading, but I have no trouble with your plants. My patch looks just like a picture."

L. B. CHAPPELL.

Salisbury, Massachusetts.

"I have been buying from you for 25 years and have no kick yet."

J. A. KROHN.

Schuyler, Virginia.

"I received my plants in very good shape. Thanks a lot."

W. E. BROWN.

Shippensburg, Pa.

"I received my plants in fine condition. Thank you very much."

BERNE G. GETTEL.

Brocton, New York.

"I certainly want to thank you for the splendid service you gave me on the tomato and sweet potato plants. They came through in excellent shape and were as fresh as when you shipped them. Evidently your following them through was a big help, as the Express Company notified me before the train arrived and I was at the train to help unload. Many thanks."

"I am looking forward to doing business with you again."

HAROLD TRACY.

Ponca, Nebraska.

"The tomato plants arrived in fine shape and wish you the best of luck. These were the best plants I ever received."

MRS. ROBERT SCHULTZ.

Verona, Pa.

"Received your pepper plants and they sure came in perfect condition. They were the nicest plants I ever saw."

LOUIS BONI.

Malvern, Ohio.

"Received our plants yesterday in good condition. Thank you."

LOUIS MILLER.

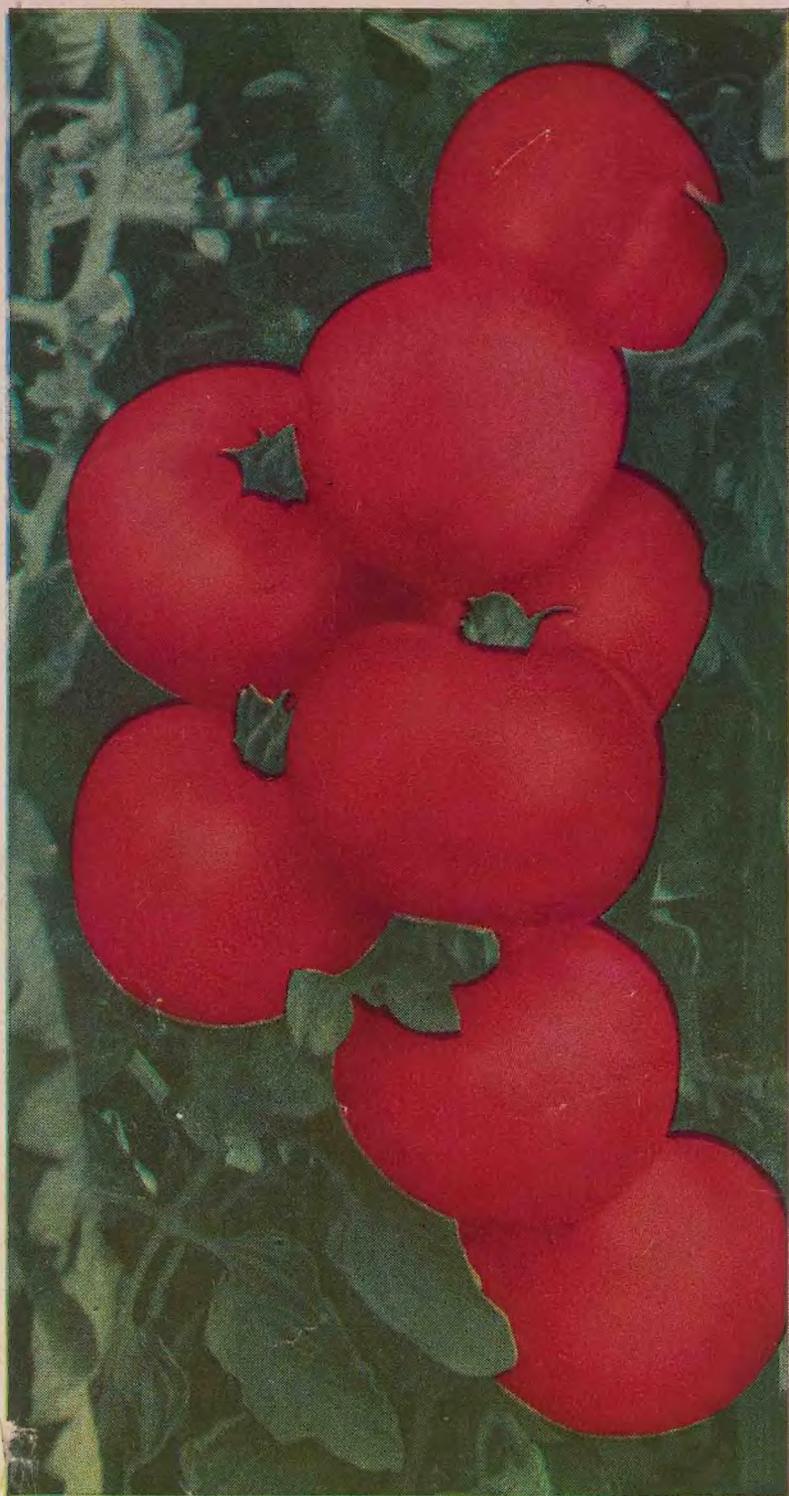

Mr. John Sproull, Pathologist and Manager of the Palatka Florida Farm, inspecting a field of Golden Acre Cabbage Plants.

# Fulwood's CERTIFIED TOMATO PLANTS

READY APRIL 1 TO JUNE 15

My Tomato plants, grown on new land from Certified seed, are certified by the State of Georgia. I grow each season four hundred acres of Tomato plants. They are grown in the open field and when shipped are 8 to 10 inches tall; they are field hardened, stocky, and well rooted. Each bundle of 100 is wrapped with paper to hold the damp moss to the roots. They are then packed in special crates or hampers and shipped by express, and will keep in good condition six to ten days. These plants are not frost-proof and should not be planted until danger of frost is over.

The fact that the seed is planted here in February and March gives the plants a chance to become acclimated and toughened by outside temperatures. When set farther North they will start growing quickly and produce rich, red, ripe Tomatoes three weeks before home-grown or hothouse plants. I ship these plants to every part of the United States, and have been shipping large quantities to market gardeners and truckers for thirty-six years. Van Camp Packing Co., of Indianapolis, Ind., uses ten million of my Tomato plants every season. Send me your order for some of these fine plants. You will be more than pleased with the early profitable crop they will produce.

### GREATER BALTIMORE

is similar to Stone, heavily productive and very valuable for canning. The large, scarlet-red fruits commonly weight 6 ounces; they are deep but flat, smooth, very firm and solid.

### MARGLOBE

is a splendid type for earliness and uniformity. It is particularly valuable for shipping; definite disease-resistance recommends it for use in sections infested with fusarium wilt and nail-head rust. Plants thrifty and heavily productive, bearing over a long period. Fruits uniform deep scarlet, large, globe shaped; smooth, solid and of distinct quality.

### RUTGERS

is highly recommended as a second-early variety for canning and Tomato juice. Fruits are of medium to large size, similar in shape to Marglobe, but slightly more flattened.

### PRITCHARD (SCARLET TOPPER)

is a very promising, heavily productive wilt-resistant variety for home and market garden, shipping and canning. Fruit large, globe shaped, scarlet and well colored about the stem end; flesh firm and of fine quality.
